

NORTON

THE START TO A PERFECT FINISH: SURFACE PREPARATION PRODUCTS

Norton complements its sanding line with an array of surface preparation products that help deliver flawless results.

NORTON SURFACE PREPARATION PRODUCTS

Synthetic Steel Wool

Flexible, non-woven pads impregnated with abrasive are ideal replacements for steel wool for heavy duty cleaning and stripping through finishing to light duty polishing.

- Won't rust, shred or splinter – will not contaminate waterbase finishes like steel wool with metal splinters
- Can be cut or folded
- Washable and reusable
- Use with or without chemicals

Grip-On

- Removes flaking paint, varnish, surface rust and corrosion while keeping hands away from chemicals
- Will not damage or change profile of surface being cleaned
- Reusable handle, replaceable stripping pad

PART NUMBER	DESCRIPTION	QTY/PK	PKS/CS
NON-WOVEN HANDY PACKS

3-1/2" x 6-1/2" x 1"			
076607 04028 2	Grip-On Pad Holder with #2 Coarse Pad	1	5
076607 05272 8	Replacement Pads #2 Coarse	2	5

3-Step Cleaning and Surface Prep System

A unique system for stripping, sanding, cleaning and applying finish with fast results, less mess and easier cleanup. Color coded by application.

Step 1

Step 2

Step 3

Strip & Clean: Coarse blue non-woven acts like a scraper to remove and trap coatings and stripper material without gouging or scratching the surface. Sponge side cleans and removes residue.

Sand & Clean: Medium green non-woven lightly sands bare or stripped surfaces to prepare them for priming, re-painting or staining. Sponge side cleans and removes sanding dust.

Apply & Clean: Cellulose side becomes an applicator pad for stains or fillers. More consistent, uniform finish than a cotton cloth and can absorb drips and sags. Non abrasive white non-woven rubs in stain/filler deeper into pores of the surface.

PART NUMBER	DESCRIPTION	QTY/PK	PKS/CS
NON-WOVEN/CELLULOSE PADS HANDY PACKS			
6-3/8" x 3-1/4" x 1-5/8"

Micro Fiber Cloths

Micro-fiber is a single fiber with a thickness less than a human hair that has been split 16 times and woven into various products. The surface area of the micro-fiber product is increased over 15 times, creating millions of spaces between the fibers which trap dirt, grime or liquids, making this product one of the most absorbent materials. These "V" shape splits, while less than a micron in size, have edges that collect debris as opposed to pushing debris away. The particles are trapped in between the fibers and can be rinsed or machine washed to release heavily embedded particles. Micro-fiber products can be washed up to 300+ times without losing cleaning and trapping abilities. Micro-fiber products save you labor time and additional costs of multiple cleaning products and chemicals.

Cleaning Cloth (Blue)

Used for general wet or dry applications with maximum absorbency. Works best when sprayed with a light water mist to deep clean.

Dry Tack Cloth (Red)

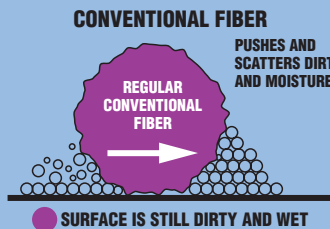

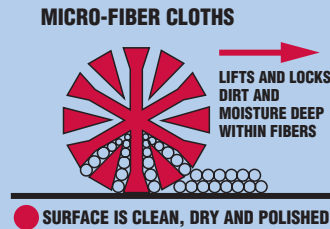

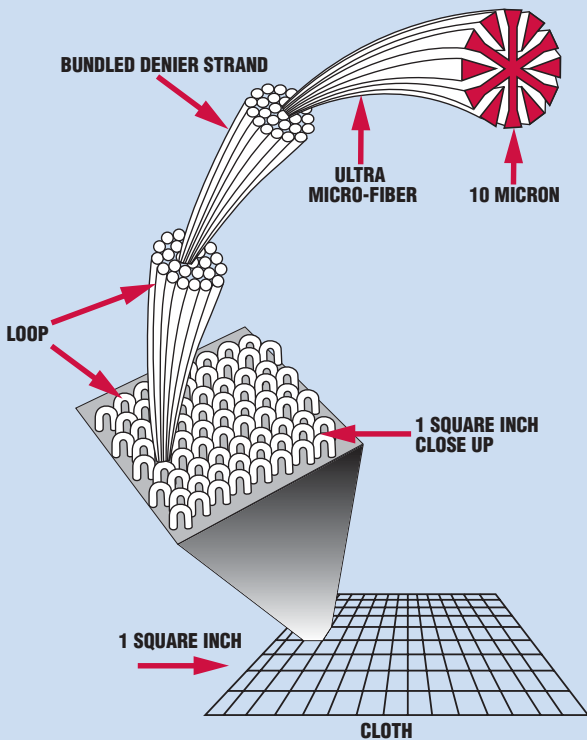

The woven terry cloth has a low profile weave to resist snagging and help pick up embedded debris. Use in dry tack applications.

Polishing Cloth (Yellow)

Lint-free, streak-free cleaning of mirrors, optical lenses and highly polished surfaces.

PART NUMBER	DESCRIPTION	QTY/PK	PKS/CS
MICRO FIBER CLOTHS			
HANDY PACKS			
16" x 16"			
076607 03883	8 Cleaning (Blue)	1	12
076607 03884	5 Dry Tack (Red)	1	12
076607 03885	2 Polishing (Yellow)	1	12
076607 05271	1 Assorted Job Pack (Blue, Red, Yellow)	3	10
BULK			
16" x 16"			
076607 05300	8 Cleaning (Blue)	-	20
076607 04025	1 Dry Tack (Red)	-	20
076607 05301	5 Polishing (Yellow)	-	20

The assorted Job Pack roll comes prepacked in a versatile, gravity feed display box which can be used upright as an offshelf merchandiser on a pole or on a counter (A) or on a shelf (B) by removing the outer carton.

tip Micro-fiber is virtually scratch resistant but may pick up debris that can scratch. Clean micro-fiber products often for best results.

Tack Cloth

Special "tacky" coating picks up sanding residue and loose dust to ensure a quality, smooth, final finish. Economical, disposable.

2-in-1 Erasing/Cleaning Pad

Melamine foam and polyester foam are joined to create a universal surface preparation product that erases clean virtually any surface free of marks or scratches without chemicals or sprays. The continuous micro filament structure of the white melamine allows it to eliminate stains, scuffs, crayon, ink, soap scum, grime, paint overspray, and spots on walls, moldings, floors, fixtures and appliances in the home, office, car or boat.

Wet

Rinse and squeeze out excess water. Do not saturate.

Wipe

Gently rub white side on surface to remove hard-to-clean marks and dried on messes. Switch to blue side to wipe away residue.

Toss

Discard after multiple uses when white side has deteriorated and replace with new pad.
