Norton 3X High Performance Hook & Sand Discs

POWER TOOL MARKET

Product:

Norton 3X High Performance Hook & Sand Discs

Availability:

- 5" x 5 & 8 Hole (Universal Vacuum Hole Pattern)
Grit Range 40 to 320
Handy Packs (3/pk), Job Packs (10/pk)
- 6" x 6 Hole
Grit Range 40 to 320
Job Packs only (10/pk)

Machine:

Designed for random orbital hook & loop vacuum sanders to match proper size and hole configuration.

Application:

Superior dry machine sanding performance for a premium surface finish on all surfaces and coatings.

Target End-User:

Anyone using a random orbital disc sander that wants an excellent finish in less time.

Benefits for Retailers:

- Ease of selection to your customers
- Less SKUs in set
- Highly technical product at consumer friendly pricing

Product Attributes for Customers:**Features**

- Patented, p-graded ceramic alumina abrasive (80-320)
- Unique, fiber-reinforced paper backing
- Non-pigmented, waterbase stearate coating
- Hook and loop backing
- Patented, universal vac hole pattern (5")

Benefits

- 3 times longer total performance than conventional aluminum oxide products
- Consistent surface finish
- Exceptional performance on **all** surfaces and coatings
- Industrial quality with excellent flexibility and edge tear resistance
- Best resistance to clogging or loading of paper during sanding
- No finish contamination
- Most accepted tool backing today with quick and easy attachment for quick disc changes
- Save discs for future use
- Fits all 5 and 8 hole sander models

**What to Remember:**

Unmatched, consistent product performance that cuts fast with less work in less time.
